1. Entry details

- 1.1 All animals must be shorn within 3 months prior to the competition. It is preferable for the length of wool to be less than 25mm.
- 1.2 All animals will be ear tagged after weighing in at the Showgrounds. Exhibitors are asked to ensure that any superfluous ear tags are removed from their animals prior to departure from the farm.
- 1.3 The Committee reserves the right to restrict the number of entries in the event of space limitations.
- 1.4 **Entries are limited to a maximum of 4 groups of 4. Exhibitors can however enter animals under both the farm name and that of the exhibitor.**

2. Care of animals

- 2.1 Exhibitors are required to feed and water their slaughter stock until removal to the abattoir on Sunday afternoon 30 May 2010.
- 2.2 By prior arrangement with the Society, the Sheep Committee is prepared to feed and water slaughter stock entered by exhibitors resident outside of the Province.

3. Weighing and mouthing

- 3.1 All animals must be paraded for weighing, mouthing and judging in accordance with the Programme.
- 3.2 Should the average weight of a pen entered in Class 1 exceed 40kg, the pen will be transferred by the stewards to Class 2 prior to judging and vice versa in the event of the average weight being less than 40kg.

4. Block Test Competition

- 4.1 All animals are automatically entered in the Block Test and must compete therein.
- 4.2 The best three scores from each group of four carcasses will count.
- 4.3 Bruised or unsound carcasses will be disqualified.

- 4.5 The Champion & 1st and 2nd Reserve Carcasses will be on display in the refrigerated show cabinet during the afternoon of Wednesday 2 June and will be auctioned the same day.
- 4.6 To facilitate a degree of certainty, Jacques Abattoir will commit to a floor price (for the following seven days) for all carcass grades; this to be set at 12 noon on Friday 28 May. For 'in milk' classes it is not necessary for the lamb to appear with the ewe in the class, however, it must be available if requested by the judge, should there be a problem to be solved.

Where the lamb is too heavy, the ewe must compete in the dry class.

By 'in melk' klasse hoef die lam nie saam met die ooi in die ring ingebring te word nie, maar moet op aanvraag van die beoordelaar beskikbaar wees, sodat enige twyfel uit die weg geruim kan word.

Waar die lam te swaar is, sal die ooi in die droë klas kompeteer.
